DR TOMASZ JEŻEWSKI MD

Is a specialist in internal medicine and cardiology with over 20 years of experience. Since the age of six—when he was hospitalized in a surgical ward for an appendicitis operation—he knew he wanted to help heal people. His dream came true when he graduated from the Faculty of Medicine at the Medical University of Łódź and embarked on an 11-year journey at the Cardiology Clinic, during which he completed his specialization and defended his doctoral thesis.

Today, he places just as much importance on prevention as he does on treating the heart and vascular system. He personally follows the guidelines of an Unprocessed Plant-Based Diet (NKR) and successfully implements them with his patients. Since 2024, he has been applying his extensive knowledge and experience to co-create NUTRICODE dietary supplements.
